2. *Season.*—The south-west monsoon made a feeble start towards the end of May 1944 and after causing widespread rainfall on the Malabar Coast in the first four days of June 1944 weakened thereafter. The regular advance of the monsoon took place only on the 8th June 1944, but it was much less active than usual and the rainfall in the month was deficient on the West Coast. Fairly widespread thundershowers occurred in the eastern half of the Peninsula between the 24th and 30th of the month. The rainfall in June was normal or bordering on the normal in Kistna, Coimbatore, Madura and Ramnad, below the normal in Vizagapatam (Plains), East Godavari (Agency), Tinnevelly, Malabar, South Kanara and the Nilgiris and above the normal in the other districts of the Province. The monsoon was generally active on the West Coast in July and caused fairly good rains in the rest of the Province in the first half of the month. The rainfall in the month was bordering on the normal in Kistna, Salem and Tanjore, below the normal in Coimbatore, Trichinopoly, Madura, Ramnad, Tinnevelly, Malabar and South Kanara and above the normal in the other districts of the Province. Except for a temporary strengthening between the 1st and 4th and the 16th and 23rd, the monsoon was generally feeble on the West Coast during August 1944. Local showers occurred in parts of the Peninsula between the 4th and 6th, 11th and 20th and 25th and 27th August 1944. During the month the rainfall was normal or bordering on the normal in Kistna, Chingleput, and Tinnevelly, below the normal in Vizagapatam (Plains), East Godavari (Agency), Kurnool, Bellary, Anantapur, Cuddapah, Nellore South Arcot, Malabar, South Kanara, and the Nilgiris and above the normal elsewhere. The deficiency of rainfall in August 1944 was marked in the Deccan. Owing to the defective nature of the South West Monsoon, the yield of early Kar paddy in parts of the Southern and the Central districts and of the first crop of paddy on the West Coast was affected and dry crops

in the Deccan began to wither. The monsoon was generally weak on the West Coast in September 1944 except for local showers between the 19th and 24th of the month. Local thundershowers occurred in parts of the Province between the 2nd and 6th, 9th and 13th and 23rd and 27th September. The rainfall in the month was bordering on the normal in Kistna and Nellore, above the normal in Kurnool, Bellary, Cuddapah, Chittoor, Salem, Coimbatore, Trichinopoly, Tanjore, Madura, Ramnad and Tinnevelly and below the normal in the rest of the Province. The rains of September helped to revive the crops in the Deccan. As a result of the insufficient rainfall in the month, the sowings of the long-term paddy crop in South Arcot and of the Makaram crop in Malabar were retarded. Over the whole period of the South West Monsoon (June to September 1944) rainfall was bordering on the normal in the Kistna district, below the normal in Vizagapatam (Plains), East Godavari (Agency), South Arcot, Malabar, South Kanara and the Nilgiris and above the normal in the other districts of the Province.

Freshes came down the main rivers in time and continued steady and generally sufficient for agricultural operations except in the Cauvery and in the Tambraparni in the beginning of the season.

Sowings of the early crops were above the average in the Circars and the Central districts and below the average in the Carnatic and the Deccan (dry crops only). In the rest of the Province sowings were above the average in the case of early dry crops and below the average in the case of early wet crops.

The condition of the standing crops was generally satisfactory except in parts of the Deccan where the dry crops were affected by drought in August 1944.

North-East Monsoon.—During the first fortnight of October 1944 fairly widespread thundershowers occurred in the Peninsula. A depression, formed in the Bay on the 15th, intensified into a storm and crossed the coast near Masulipatam during the night of the 16th. In association with this depression widespread and locally heavy rain fell in the coastal districts of the Circars between the 14th and 18th. Local thundershowers occurred in the south of the Peninsula between the 19th and 24th. Conditions again became unsettled in the South Bay of Bengal on the morning of the 25th and a cyclonic storm developed and crossed the coast north of Madras on the 26th, causing widespread rainfall in the Peninsula between the 25th and 28th. The rainfall in October was normal or bordering on the normal in East Godavari (Agency), Salem and Malabar and above the normal in the other districts of the Province except South Arcot, North Arcot, Tanjore and Tinnevelly. It was very heavy in the districts of East Godavari, West Godavari, Kistna and Guntur and as a result of the heavy rains the standing crop of paddy in low-lying lands in parts of these districts was submerged. The standing dry crops were also affected to some extent. The monsoon became well established in the south of the Peninsula in November 1944 as a result of unsettled conditions and low-pressure waves in the Bay of Bengal and the rainfall during the month was very heavy in the districts of Nellore, Chingleput, South Arcot and Tanjore. The rainfall in November was below the normal in the Circars (East Godavari Agency excepted), Kurnool and Anantapur and above the normal in the other districts of the Province. The heavy rains and continuous wet weather in November 1944 resulted, in drainage congestion in parts of Tanjore district and the yield per acre of the main samba crop was affected to some extent. The monsoon again became active in the south of the Peninsula in the first week of December as also between the 11th and 13th and on the 21st and 22nd. There was practically

no rain in the month in the Circars and the Deccan and in the rest of the Province the rainfall was bordering on the normal in the Nilgiris and above the normal in the other districts except in Nellore and Chittoor. The weather was generally dry in January 1945 except for light local showers. Over the whole period of the North-East Monsoon (October 1944 to January 1945) rainfall was bordering on the normal in East Godavari (Agency) and Cuddapah, below the normal in Vizagapatam (Plains), and above the normal in all the other districts of the Province.

Sowings of the late crops were below the average except in the Deccan and the West Coast (dry crops only) and the Central districts and the South (wet crops only).

The condition of the late crops was generally fair except in parts of Bellary where white cholam was affected by pests and in parts of East Godavari, West Godavari, Kistna, and Guntur where standing dry crops and paddy were affected as a result of the heavy rains of October 1944.

Local thundershowers occurred in Malabar on the 16th February 1945 and in the extreme south of the Peninsula between the 23rd and 26th. There was practically no rainfall in March 1945, in the Province except for local showers in the second and last weeks of the month in south and south-east Madras. Thundershowers were pronounced in parts of the Province in April 1945. The rainfall in the month was normal or bordering on the normal in Malabar and the Nilgiris below the normal in Cuddapah and South Kanara and above the normal in the rest of the Province. Scattered showers fell in May 1945 and the rainfall in the month was normal in West Godavari, above the normal in Kurnool and Anantapur and below the normal in the other districts of the Province.

The season for the Province as a whole was fairly satisfactory though it was not as good as in the previous fasli in Vizagapatam, Malabar, and South Kanara. There were no relief operations under the Famine Code during the year under review.

Remissions of land revenue were appreciably less than in the previous fasli in most districts. Land revenue in the year under review had to be remitted on a fairly large scale only in parts of Vizagapatam (Rs. 62,038), West Godavari (Rs. 60,659), Kistna (Rs. 51,295) and Guntur (Rs. 1,18,695). The Government also granted graded remission of assessment on dry lands ranging from 50 to 100 per cent in 49 villages in Kalyandrug taluk in Anantapur district which were affected by adverse seasonal conditions. The amount involved was Rs. 34,330. The collection of the unremitted land revenue of fasli 1352 in nine villages of Siruguppa taluk of the Bellary district was further postponed to fasli 1355.

In addition to these season remissions, the Government continued the temporary reduction of water-cess in East and West Godavari and Kistna districts and in the deltaic tracts of Guntur.

3. The total number of ryotwari villages in the province was the same as in last fasli (21,101).

4. The land revenue of the Province is derived from the following sources :—

(i) peishkash or revenue from permanently settled estates;
(ii) shrotriyam jodi or quit-rent levied on inam villages;
(iii) assessment including water-rate on lands held under ryotwari tenure; and
(iv) miscellaneous revenue.

5. *Peshkash or revenue from permanently settled estates.*—The total amount of peshkash payable during the fasli was Rs. 47,35,192 as against Rs. 47,35,065 (revised figure) in the previous fasli. The increase of Rs. 127 is explained below :—

7. The total extent of ryotwari holdings during the fasli was 27,654,185 acres against 27,656,253 acres in the previous fasli which shows a decrease of 2,068 acres. There was an increase in all the districts except the following where there was a decrease :—

Vizagapatam (26) ; East Godavari (12,634) ; Kistna (57) ; Nellore (266) ; Kurnool (121) ; Trichinopoly (44,849) ; The Niligiris (236).

The increase in Madura district was mainly due to addition of villages from the Trichinopoly district. The increase in the other districts was chiefly due to fresh assignments and resumption of inams.

8. The total assessment of holdings was Rs. 604·27 lakhs as against Rs. 603·79 lakhs in the previous fasli showing a net increase of Rs. 0·48 lakhs. There was an increase in all the districts except the following where there was a decrease :—

Vizagapatam (Rs. 23) ; East Godavari (Rs. 4,969) ; Nellore (Rs. 258) ; Kurnool (Rs. 93) ; Trichinopoly (Rs. 52,973). The decrease in Trichinopoly district was due to the transfer of eleven villages to Madura district. The decrease in other districts is not appreciable.

9. (*i*) The total area cultivated in ryotwari holdings was 20·69 million acres against 21·00 million acres (revised figure) in the previous fasli. There

was a net decrease of 272,540 acres under dry and a net decrease of 40,829 acres under wet resulting in a net decrease of 313,369 acres.

(ii) The total area cultivated during the fasli including that under miscellaneous cultivation was 215·13 lakhs acres as against 219·74 lakhs acres (revised figure) in the previous fasli. There was an increase of 512,766 acres under waste charged.

10. *Water-rate and second-crop charge.*—The revenue derived from this source amounted to Rs. 52·64 lakhs against Rs. 52·98 lakhs in the previous fasli. There was an increase of Rs. 2,53,683 in some districts and a decrease of Rs. 2,87,534 in other districts resulting in a net decrease of Rs. 33,851. The increase was marked in all the districts except in the following where there was a decrease :—

Kistna (Rs. 204); Nellore (Rs. 13,663); Cuddapah (Rs. 35,060); Bellary (Rs. 7,017); Chingleput (Rs. 10,605); Chittoor (Rs. 30,498); North Arcot (Rs. 115,366); South Arcot (Rs. 66,563); Trichinopoly (Rs. 4,452); Tinnevelly (Rs. 4,058) and Malabar (Rs. 48).

In North Arcot the decrease was due to late rains and inadequate supply in the irrigation sources. In South Arcot the decrease was due to the unfavourable season and the inability of the ryots to raise second-crop cultivation on any large scale and in Cuddapah it was due to the decrease in the second-crop irrigation.

11. *Remissions.*—There was a total remission of Rs. 17·96 lakhs of which Rs. 4·58 lakhs were seasonal remissions. As compared with the previous fasli there was a decrease of Rs. 1·49 lakhs. There was a decrease in all the districts except in East Godavari, Guntur, Cuddapah, Chittoor, South Arcot, Coimbatore and Malabar where there was an increase.

(i) *Seasonal remissions.*—The amount remitted under this head was Rs 4,58,074 as against Rs. 6,20,093 (revised figure) in the previous fasli and there was a net decrease of Rs. 1,62,019. The decrease was due to favourable conditions of the season and was appreciable in all the districts except in East Godavari, Guntur, Cuddapah, Anantapur, Chittoor, North Arcot and South Arcot where there was an increase.

(*a*) *Waste remissions.*—The total amount remitted under this head was Rs. 1·5 lakhs against Rs. 1·6 lakhs in the previous fasli resulting in a net decrease of Rs. 0·06 lakhs.

(*b*) *Shavi or loss of crop.*—The total amount remitted under this head was Rs. 88,917 against Rs. 1,59,474 in the previous fasli resulting in a net decrease of Rs. 70,557 which was due to favourable conditions of the season. The decrease was marked in all the districts except in the following where there was an increase :—

East Godavari (Rs. 11,396); Cuddapah (Rs. 1,009); Kurnool (Rs. 2,414) and South Arcot (Rs. 6,385).

(*c*) *Tirwakammi remissions* (i.e. remissions of the difference between wet and dry assessment on wet lands cultivated with dry crops owing to insufficiency or failure of water-supply).—The amount remitted under this head was Rs. 1,69,473 against Rs. 2,46,340 in the previous fasli and there was a net decrease of Rs. 76,867. There was a decrease in all the districts except in the following where there was an increase :—

Kistna (Rs. 4,947); Cuddapah (Rs. 5,601); Bellary (Rs. 3,243); Chingleput (Rs. 882); Chittoor (Rs. 932) and North Arcot (Rs. 5,821).

The decrease was due to the favourable condition of the season.

(*f*) *Short crop or poor harvest.*—The amount remitted under this head was Rs. 40,959 against Rs. 25,522 in the previous fasli resulting in a net increase of Rs. 15,437.

(ii) *Fixed remissions* (i.e., abatement of demand on account of reasons unconnected with the season).—The amount remitted under this head was Rs. 1,69,729 against Rs. 1,61,784 (revised figure) in the previous fasli the net increase being Rs. 7,945.

(iii) *Beriz deductions.*—Deductions made in favour of inamdars and religious institutions amounted to Rs. 10,15,513 against Rs. 10,04,426 (revised figure) in the previous fasli showing a net increase of Rs. 11,087.

(iv) *Land revenue concessions.*—As the economic condition of the agriculturists had generally improved with the rise in prices of agricultural produce the Government withdrew in fasli 1353 the general concessions of land revenue granted in the previous faslis. Special dry remission of Rs. 34,330 on account of loss of crops due to adverse seasonal conditions was, however, granted in 49 villages of the Anantapur district.

16. *Demand, Collection and Balance of Land Revenue and Cesses (Current).*—The current demand under land revenue and cesses during the fasli was Rs. 10,05,91,571. A sum of Rs. 9,92,90,928 or 98·71 per cent was collected within the fasli and Rs. 4,50,589 or 0·45 cent written off the accounts. The collection of a sum of Rs. 41,061 or 0·04 per cent was suspended or postponed. The percentage of collection to the collectable demand was therefore 99·19. The percentage of collection to demand during the previous fasli was 98·52; that written off was 0·43 per cent, and that suspended or postponed was 0·02 per cent. The percentage of collection to the collectable demand was 98·96. The land revenue collections for fasli 1354 have been dealt with in paragraph 11 (iv) above.

17. *Demand and Collection of arrears.*—The total arrear demand under all the heads amounted to Rs. 16,24,600. A sum of Rs. 12,41,871 or 76·44 per cent was collected and a sum of Rs. 53,158 or 3·27 per cent was written off the accounts. The collection of Rs. 2,27,524 or 14·00 per cent was

postponed or suspended. The percentage of collection in the previous fasli was 61·32 and that written off was 8·46.

18. The balance outstanding at the end of the fasli including both arrears and current was Rs. 11,79,625 against Rs. 16,19,721 at the end of the previous fasli. As reported by the Collectors in their Demand, Collection and Balance Statements for September 1945, the balance at the beginning of fasli 1355 was Rs. 10,51,190. Up to the end of September 1945 a sum of Rs. 5,62,599 was collected and Rs. 5,053 written off the accounts. Proposals have been made to write off Rs. 6,649. The net recoverable balance on 1st October 1945 was thus Rs. 4,76,889. Out of this amount a sum of Rs. 2,71,565 is covered by orders of suspension or postponements in the Presidency. Deducting this amount the realizable balance on 1st October 1945 was Rs. 2,05,324.

19. *Adjustment to Local Boards of cesses collected during the fasli.*—Land Revenue and cesses are collected together and the distribution of the total collections between Land Revenue and cesses is effected in the Collector's offices after the compilation of the accounts relating to the fasli year.

The statements showing the amounts collected during the fasli 1354 on behalf of the Local Boards, the payments made to them during the fasli and the amounts to be finally adjusted either to their credit or debit are received from Collectors. After verification by the Accountant-General of the amounts shown by Collectors as payments made to Local Boards, the recovery of overpayments is being watched by the Board in accordance with the instructions contained in paragraph 3 of G.O. No. 5197, L. & M., dated 7th December 1926.

20. *Charges debitable to Land Revenue.*—The charges in the Land Revenue Department are shown in the accounts under the head " 25. General Administration—District Administration and Miscellaneous ". The District Administration charges excluding village establishments amounted to Rs. 142·80 lakhs during fasli 1354. The village service charges including those of the proprietary estates during the fasli were Rs. 136·68 lakhs. The total charges amounted to Rs. 279·48 lakhs or 27·80 per cent of the total land revenue and cess collected.

It has however to be borne in mind that the expenditure does not represent merely the cost of collecting the land revenue. The Land Revenue Department performs multifarious duties of which the control and collection of land revenue is only one. The village establishment in particular is the servant of all the departments of the Government. Moreover a considerable portion of the time of the Collector and his subordinate officials is occupied with magisterial work, with war and civil supplies work, and with post-war problems also. While the actual cost of collecting the land revenue cannot be estimated with any degree of accuracy, it is far less than the amount of expenditure shown above.
